About the journal. We at the American Journal of Epidemiology appreciate the time and effort our authors expend to prepare manuscripts for publication. Because of this, we have decided to relax our submission guidelines to make the process as simple as possible. Articles may now be submitted in the authors’ preferred format and reference style.

OBJECTIVE: To test the feasibility of creating a valid and reliable checklist with the following features: appropriate for assessing both randomised and non-randomised studies; provision of both an overall score for study quality and a profile of scores not only for the quality of reporting, internal validity (bias and confounding) and power, but also for external validity.
The feasibility of creating a checklist for the assessment ...
